

BREATHE NEW LIFE INTO YOUR JUKEBOXES WITH OS2 UPGRADE KITS

You can now upgrade your TouchTunes floor model jukeboxes with the same breakthrough technology found in Angelina and the Fusion Music System. OS2 Upgrade Kits improve the reliability of older jukeboxes while helping to boost revenue and enhance the customer experience.

OS2 Upgrade Kits are available for the MX1, Allegro, Rhapsody, Genesis, and Ovation jukebox models, and include:

- An MHP-PC
- 500 GB hard drive
- I/O board
- Bracket with cabling
- Power supply (only if replacing an MJS computer)

OS2 Upgrade Kit Value:

- **Reduced inventory costs**
Hardware is interchangeable with Angelina and Fusion Music Systems.
- **Improved reliability**
MHP's snap-in, component-to-component design simplifies internals and servicing.
- **Hardware guarantee**
By upgrading to OS2, the hard drive is warrantied for the duration of the Individual Jukebox Term in the applicable MSA.
- **Enhanced music experience**
Music profiles and dynamic learning algorithms tailor the user interface based on the jukebox's history to promote plays.
