

TouchTunes Pay™

Your path to user & revenue growth

TouchTunes Pay™ introduces darts to a whole new audience growing your user base. With one app, the TouchTunes® app, patrons can purchase TouchTunes® credits and use them for music and/or for darts increasing dwell time, entertainment options, and repeat consumers.

App fees for dart games? Not for you

Service and credit card fees for dart games are paid by the player

All service & card fees are player-funded

No additional TouchTunes Pay™ fees to the operator

Eliminate payment barriers

“Cash Only” is an obstacle that can limit the amount of players who use the dartboard. By removing this hurdle, the potential to grow the number of plays and players on a BullShooter® dartboard could grow exponentially

Increase awareness

With the dartboard opened up to a bigger audience with multiple payment options, you can attract a new crop of users who are younger, more tech savvy, and will continue to use the product for years to come. Promoting TouchTunes Pay™ increases product awareness and brings BullShooter to the forefront of your venue’s entertainment options

NO new hardware required

No need for new hardware. TouchTunes Pay™ is seamlessly added to your BullShooter® dartboards through a software setting

Increase player engagement

More play opportunities can lead to longer dwell time and increased revenue

Detailed revenue dashboard

With an updated dartboard collection screen, new Tempo dart reporting, and comprehensive weekly payouts, TouchTunes Pay™ gives you a thorough and detailed view of your revenues

Sign up is easy

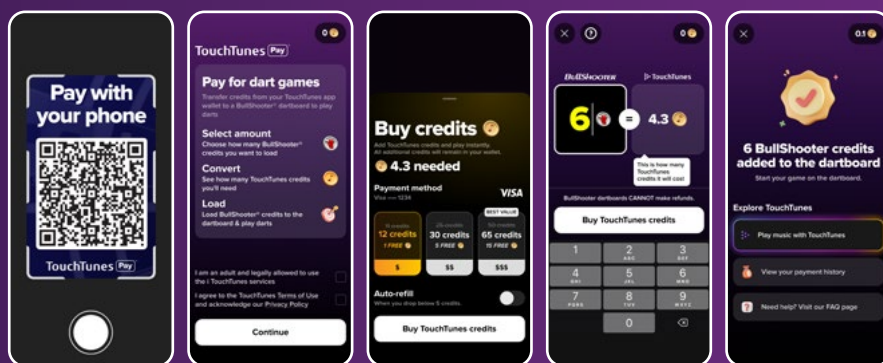

Simply agree to the terms of the new TouchTunes® Dart Agreement in Tempo, confirm your LeagueLeader® account, and you are good to go! Once submitted, TouchTunes Pay will be activated across your fleet of online G3 devices

Seamless Player Experience

Playing darts has never been easier:

- Quick QR code scan
- Use the TouchTunes App to purchase credits
- Credits are quickly sent to the dartboard
- All you need to do is play!

Perfect for casual play, league play, & tournament play

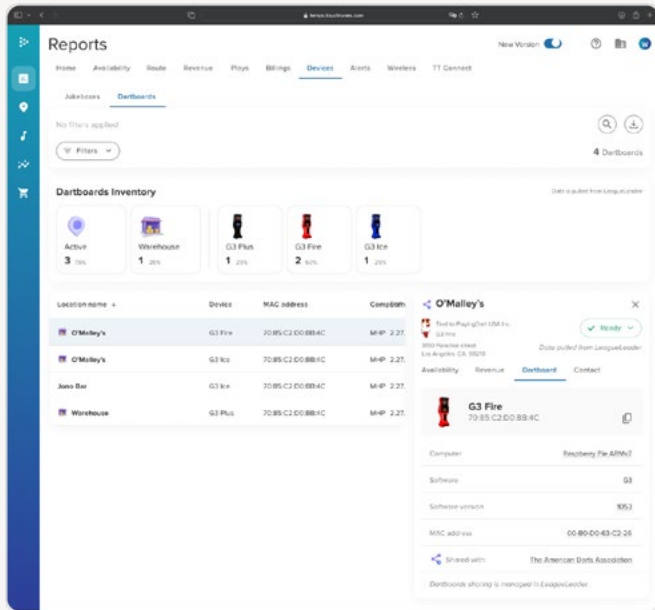

All Your Dartboard Information in Tempo

Revenue breakdowns, device connectivity, and performance data - available right alongside your jukebox reports

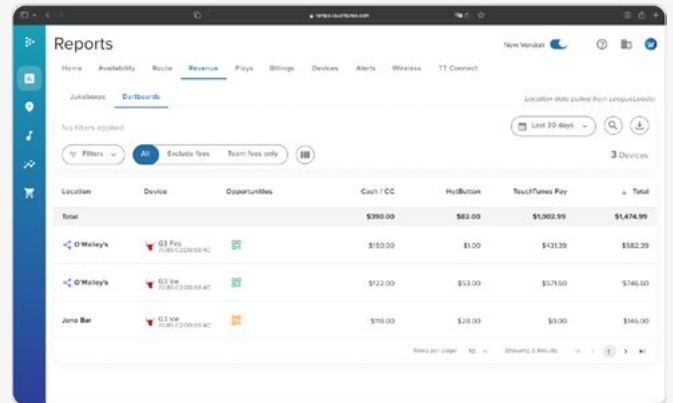

All your dartboards, all in one place

View revenue, status and more for all G3 dartboards in your LeagueLeader account(s)

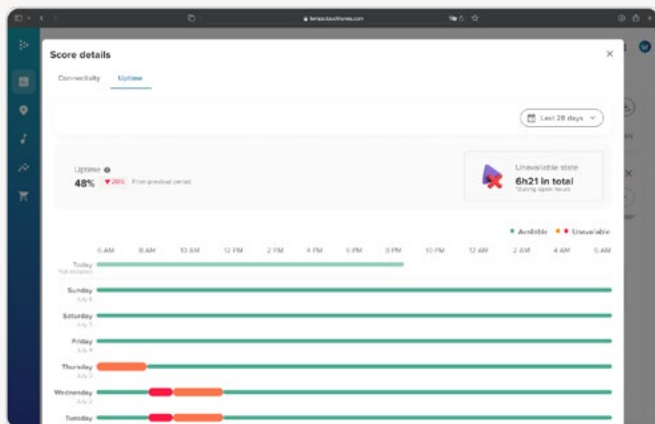

See your entire dartboard fleet revenue
